### **DETAILED ACTION**

This is a Notice of Allowance for Application no. 10667063 in response to the After Final Amendment filed on September 21, 2007.

#### ***Allowable Subject Matter***

Claims 2, 3, 5 and 6 are allowed.

The following is an examiner's statement of reasons for allowance: After a further search and a thorough examination of the present application and in light of the prior art made of record, claims 2, 3, 5, and 6 are found to be in condition for allowance.

The claims are allowable over the prior art of record since the cited reference taken individually or in combination fails to particularly disclose a method of downsampling a two-dimensional block of discrete cosine transform (DCT) coefficients as claimed in independent claims 2 and 5.

The closest prior art (US Patent 6,141,456 to Pearlstein et al.) discloses a method of downsampling a two dimensional block of discrete cosine transform (DCT) coefficients (Fig. 10). However, Pearlstein fails to particularly teach or suggest the de-interlacing as described in step (d) of claim 2 and step (e) of claim 5.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Erick Rekstad whose telephone number is 571-272-7338. The examiner can normally be reached on 8-5.
